Problem:

You may owe far more on your car than it's really worth. *You want to keep your car, even after you have filed for bankruptcy. You need it.*

Normally, lenders do let you keep your car but demand and impose full payment on your current car loan.

Typically, you have very few options with your vehicle in a bankruptcy:

You can **REAFFIRM** on you car loan, and continue making your high monthly payments until your loan is paid in full

or

SURRENDER your vehicle, leaving you with no means of transportation

Very rarely are either of these your best choice.

Solutions:

Redemption

Working with you, your attorney and your creditor, our REDEMPTION program allows you to take advantage of a better choice.

Our REDEMPTION program allows you to keep your car by paying the fair market value to the creditor – not the amount you actually owe.

The result is...

- A LOWER MONTHLY PAYMENT with...
- FEWER OR EQUAL PAYMENTS and...
- A FRESH FINANCIAL START with a MAJOR, NATIONAL BANK

Replacement

If a redemption loan does not work for you for any reason, our WHOLESAL REPLACEMENT PROGRAM can help you locate a late-model, low mileage vehicle at or near the wholesale – not retail – price. This allows you to replace your car while in bankruptcy.

The benefits include:

- Re-established credit with a national bank
- We assist you in locating a car near the WHOLESAL – not RETAIL – price.
- Affordable monthly payments
